PROFESSIONAL SUMMARY

Frontend-focused Software Engineer and RIT Computer Science graduate (Cum Laude, 3.5 GPA) with hands-on experience building and shipping Angular web applications in Agile team environments. Proficient in TypeScript, JavaScript, HTML, CSS, Angular, and .NET, with a track record of delivering polished, production-ready UI features across internship and personal projects.

EDUCATION

Rochester Institute of Technology

Bachelor of Science, Computer Science. Cum Laude. GPA: 3.5/4.0.

Rochester, NY

2025

EXPERIENCE

Technology Intern: Software Engineering

Jun 2024 – Aug 2024

M&T Bank

Buffalo, NY

- Consolidated 4 .NET web applications into a unified Angular hub serving the mortgage team, improving UI maintainability, scalability, and code reusability
- Achieved 95% code coverage by building a comprehensive unit test suite using Jasmine and Karma
- Collaborated on a CI/CD team with full-time engineers using Agile methodology to deliver production-ready software

Software Engineering Co-Op

Aug 2023 – Dec 2023

Carrier LenelS2

Rochester, NY

- Developed features for LenelS2's cloud-based web application Cumulus, applying multithreading to accelerate existing processes
- Resolved vulnerabilities and defects to improve application quality, restoring functionality to 4 defunct features

Technology Intern: IT

Jun 2023 – Aug 2023

M&T Bank

Buffalo, NY

- Built a full-stack application that reduced IT team troubleshooting time by 5 hours per update cycle
- Refactored scripts integral to IT operations, streamlining information retrieval and improving reporting accuracy
- Coordinated task completion in semi-weekly Kanban standups using Jira

PROJECTS

Personal Website

Sep 2016 – Present

- Designed, developed, and deployed a full-stack personal website using Angular
- Built interactive user-engagement features including a poll system and guestbook
- Maintain and version-control the codebase on GitHub with frequent updates and improvements

Personal Art Database

Aug 2025 – Present

- Built a full-stack image gallery web application using ASP.NET Core Blazor and SQLite to showcase 100+ digital artworks, with tag-based organization, search filtering, and statistical analytics
- Implemented a scalable content management system featuring CRUD operations, tag cloud visualization, pagination, and random discovery functionality

SKILLS

Frontend: Angular, TypeScript, JavaScript, HTML, CSS, Bootstrap, jQuery, Kendo, p5.js

Backend & Tools: C#, .NET, ASP.NET, Node.js, Spring Boot, Java, Python, SQL, Git, Jenkins, Jasmine, Karma

Workflow: Agile, Scrum, Jira
